

I would like to thank James St.John and Re:Do for the fantastic work they have done at Macy's. Twice a year we have an event to kick of the new season and to showcase our newest product, trends and big ideas.

It takes a lot for the preparation to happen so we often look for outside local talent to bring in to assist with the project. Every setting in our Galleries must be re-staged, accessorized and shown in an environment that will allow our customer to envision the product in their own home.

I was very fortunate to have been referred to James St.John. James has a great gift when it comes to Interior Design and room "make-over's". Working with a mix of existing and new accessories, lighting, art work and furniture was not a challenge for James. We were very pleased and impressed with his work.

James provided professional and talented experience, was dependable and committed through the entire project from start to finish.

We will definitely rely on James St. John and Re:Do for our upcoming projects. We highly recommend him to anyone who has a need for these types of services.

Sincerely,

**James White**
